Luis Posada Carriles Art Exhibit

Dear Friends,

With this issue of The Hialeah Update, I would like to take this opportunity to show you all of the festivities that have been occurring around our city in the last two weeks. I hope everyone is enjoying this holiday season and preparing for the end of another wonderful year. As a city we have been out and about helping those in need this holiday season and trying to spread the holiday spirit. I would like to once again urge to you stay safe during this wonderful time of year.

Council Sworn In: On November 26, 2007 the City of Hialeah swore in the City Council Members. The members sworn in on that day were Jose Caragol, Vivian Casals-Munoz, Isis Garica-Martinez, and Jose "Pepe" Yedra. We wish them all the best of luck.

Young Girl Honored For Her Actions: On November 21, 2007, Mayor Julio Robaina and the City Council honored 12 year old Ruby Dominguez for saving her 58 year old grandmother, who accidentally pressed the accelerator, which caused the car to go straight into the canal on East 52 street. After plunging into the canal Ruby quickly acted and saved herself, as well as her grandmother who does not know how to swim.

Mayor Visits Hialeah High: On November 15, 2007, Mayor Robaina joined by Hialeah Police Department's Special Investigation Section / Gang Unit visited Hialeah High School to speak to the Law Club. The Mayor spoke to the students about his leadership in government and how it pertains to violence around the city.

School Board, County and City Unit: On November 20, 2007, the School Board approved Board Item H-12 presented by Ms. Perla Tabares Hantman, authorizing the Superintendent to finalize negotiations and execute an Inter local agreement between Commissioner Seijas and the City of Hialeah to facilitate implementation of the above referenced project. The next step is to draft the Inter local Parking Garage Adjacent to Hialeah Senior High School and build a Parking Garage Adjacent to Hialeah Senior High School which will serve to accommodate the Performing Arts Center and alleviate parking during events at Milander Auditorium.
